## Rescue of the Kindergarten Bühlhof, Wolfhausen Against Centralism and Pure Finance – for the Children!

The school board of our municipality (consisting of 7 Bubikon and 2 Wolfhausen!) has on 29.11.12 for the first time and surprisingly a small group of Wolfhausen opened, that they want to close the kindergarten Bühlhof per autumn 2013. The cited reasons (like e.g. „only 40 cm space per child for changing clothes in the wardrobe“ or „a damp cellar, which is not suitable for storing craft materials like wool“) are pushed-up luxury problems, which can be solved with a healthy human understanding or do not even need a solution, because they already function today. Rather it is about the school president, based on a centralist thinking, to pull all school offers into the Fosberg/Geissberg area, because so some processes can be simplified and because one can save money. A legal coercion or something like that, as a part of the school board wanted to do, is not!

### What the school board does not say:

- That it is primarily about money, without showing how effective (investment and operation) can be achieved through a merger of kindergartens in Fosberg/Geissberg.
- Why the population was not involved in any way and in such an important village decision. On the contrary, an attempt was made to keep the matter under the lid. Even the above-mentioned event found only because of the pressure of some residents and the real affected (e.g. parents with children in the area) were not even invited.
- The hitherto always as a compelling reason treated introduction of the primary school is on 25.11.12 clearly rejected, in Bubikon with 1410 No against 318 Yes. In other words, there is absolutely no legal necessity to close the kindergarten.

### The undersigned speak out:

- For the compulsory preservation of the kindergarten in Bühlhof.
- For short kindergarten paths, which the children can walk themselves.
- For the building of self-responsibility and self-confidence instead of parent-taxi service for spoiled and lazy children.
- For a safe kindergarten path, which for the majority of Bühlhof-kindergartners does not lead over the extremely busy main road!
- For enough time over the midday, for the way home to the common family-midday meal (even without car) as a socially important meeting point!
- For a neighborhood kindergarten, which works best, in which the children feel comfortable and which is an important part of village life in the upper part of Wolfhausen!
